

WHY MCINTOSH?

At McIntosh Farm Machinery, we take pride in delivering robust, high-quality equipment designed to withstand the toughest farming conditions for New Zealand farmers.

75+ Years of Expertise

A family owned and operated business with decades of experience in designing and manufacturing innovative farming solutions.

Unmatched Durability

Built with premium materials and precision engineering to ensure long-lasting performance in New Zealand's harsh conditions.

Tailored Solutions

Customisable machinery designed to meet your farm's specific needs, maximising efficiency and performance.

Reliable Support

Backed by dedicated after-sales service and expert advice to keep your equipment running smoothly.

MULTI BALE FEEDER

Engineered for efficiency and built to perform, the award-winning McIntosh Multi Bale Feeder is purpose-built for serious feeding efficiency.

With a rugged 4 or 5 bale capacity and a unique self-loading design, it's the ideal solution for large-scale operations where performance is non-negotiable. Whether you're feeding out hay or baleage, round or square bales, the Multi Bale Feeder delivers unmatched strength, reliability, and simplicity. Its low centre of gravity and wide cradle provide superior stability across all terrain, while dual-side feeding and multi-bale handling reduce trips and streamline the feeding process.

Proudly designed and manufactured in New Zealand, the McIntosh Multi Bale Feeder combines our proven durability with smart, farmer-focused innovation, making every feeding job faster, easier, and more efficient.

STANDARD FEATURES

Double ram loading system

Heavy-duty 3" 12,000 lb roller chain

Side waste bin

Rolling teeth keep bales moving smoothly

OPTIONAL EXTRAS

- ☐ Square bale attachment kit
- ☐ Square bale attachment extension arms for loading frame
- ☐ Trough extension arm
- ☐ Brakes front axle
- ☐ Tyres – tractor tread 11.5/80–15.3
- ☐ Tyres – tractor tread 400/60–15.5 (multi 4 only)
- ☐ LED lights
- ☐ Lid on front waste box

SPECIFICATIONS

Model	Length (mm)	Width (mm)	Height (mm)	Weight (kg)	Cradle (mm)	Hubs (mm)	Tyre Size
MULTI 4	6940	2300	1100	2180	2300	60	11.5/80–15.3
MULTI 5	8140	2300	1100	2390	2300	60	400/60–15.5

NB: All weights and measurements are approximate and dependent on specifications and may change without notice.

EFFORTLESS LOADING AND FEEDING

A yellow slat clearly marks the optimal loading position for easy operation. Once loaded, the rear wall pushes the bale onto the feeding platform. Rolling teeth help the bale slide forward smoothly, preventing it from catching on the slat teeth. As the rear wall moves, it triggers a valve that automatically switches the system from loading to feeding, reducing the number of hydraulic hoses required to connect to the tractor.
