

WHY MCINTOSH?

At McIntosh Farm Machinery, we take pride in delivering robust, high-quality equipment designed to withstand the toughest farming conditions for New Zealand farmers.

75+ Years of Expertise

A family owned and operated business with decades of experience in designing and manufacturing innovative farming solutions.

Unmatched Durability

Built with premium materials and precision engineering to ensure long-lasting performance in New Zealand's harsh conditions.

Tailored Solutions

Customisable machinery designed to meet your farm's specific needs, maximising efficiency and performance.

Reliable Support

Backed by dedicated after-sales service and expert advice to keep your equipment running smoothly.

MCINTOSH

BEATER WAGON

12 – 27M³

The McIntosh Beater Wagon delivers a more consistent and even feed mix due to its unique three horizontal PTO-driven beaters.

Heavy-duty augers with Bisalloy steel tips break up and blend a wide range of feeds, including bales, maize, silage, and vegetable waste, without extra mixing time. Feed is distributed evenly onto the conveyor for minimal waste and a clean, long throw into troughs or over fences.

Available in 12–27 m³ capacities, it's ideal for both feed pads and paddocks. Built tough with a fully welded body, 5 mm steel floor, 3 mm pressed sides, and 75 x 40 channel slats, the Beater Wagon is designed for durability. Its simple floor and beater system needs less horsepower and mixing time, reducing fuel use and labour. Farmers report better feed consistency and lower running costs. Even with citrus pulp, fodder beet, or compost. Backed by decades of proven performance, it's the smart investment for lasting value and reliable results.

STANDARD FEATURES

Auto floor chain tensioner

Horizontal augers

Bisalloy steel auger blades

Cross conveyor with tracking strip

OPTIONAL EXTRAS

- ☐ 4 floor chains
- ☐ Brakes on 2 or 4 wheels
- ☐ Hydraulic or air brakes
- ☐ LED lights
- ☐ RHS mudguard protection
- ☐ Tyre options
- ☐ Swivel drawbar tongue
- ☐ Walkway 250 mm wide
- ☐ Grease gun holder
- ☐ Skid 300 mm long

Cross Conveyor options:

- ☐ Belt 1200 mm wide
- ☐ Roller chain 900 mm wide
- ☐ Roller chain 1200 mm wide
- ☐ Hydraulic conveyor extension 200 mm
- ☐ Pivoting cross conveyor

Load cells options on 4 points:

- ☐ Alarm
- ☐ Dummy load cells
- ☐ Remote display
